

Sanding Sleeves

SANDING SLEEVES - General Purpose

ZIRCONIA - BLUE

Grit	24	36	40	50	50 - 80 - 100 - 120
100 x 293 mm	3.10	2.48	2.28	2.17	1.97
100 x 289 mm	2.59	2.38	2.28	2.17	1.97

ALUMINIUM OXIDE - BROWN

Grit	150 - 180 - 220 - 240 - 280 - 320 - 400 - 500
100 x 293 mm	1.86
100 x 289 mm	1.86

CERAMIC SANDING SLEEVES - High stock removal

CERAMIC - RED

Grit	24	36	40	50	60	80 - 100 - 120
100 x 293 mm	4.14	3.62	3.42	3.21	2.79	2.59
100 x 289 mm	4.14	3.62	3.31	3.11	2.69	2.48

VSM's Ceramic Grain is a self-sharpening grain that provides a more aggressive cut than your conventional abrasive grain. It is engineered to provide high stock removal in your metalworking applications and to outperform conventional abrasives.

NON-WOVEN SLEEVES - FINISHING OPERATIONS

SURFACE CONDITIONING

Grade	Coarse (Brown)	Medium (Maroon)	Fine (Blue)
100 x 289 mm (Ventilated Wheel)	10.97	10.56	10.56
100 x 305 mm (InfatableWheel)	11.39	10.97	10.97

This series is softer than its competitors which allows for an excellent speed of finish; reducing heat build up in the work piece and giving a very consistent finish. It an ideal finishing product to integrate into a finishing sequence after coated abrasives.

WHEELS FOR DRUM DRIVERS

INFLATABLE

Use for:
100 x 293mm Sanding Sleeveve

- Grinding and debburing
- Sanding of curved shapes

Price: €87.98
Part No.: 1019.3001

VENTILATED

Use for:
100 x 289mm Sanding Sleeveve

- Sanding of flat-pieces in metal
- Grinding out of curves

Price: €77.63
Part No.: 1019.3002
