

Grinding Wheels - PFERD

Manufactured without addition of ferrous, sulphurous or chlorinated fillers.

Use for: Stainless Steel (INOX)

Universal Line PSF

Use for: Surface grinding, edge grinding, root pass grinding

General purpose tool of hardness grade M-INOX. Suitable for angle grinders of all output categories. PFERD product characterized by aggressive grinding performance and long tool life. Provides outstanding shape stability in pipeline applications.

115mm x 7mm
(M PSF INOX)

Price: €3.11
Part No.: 5032.1009

230mm x 7mm
(M PSF INOX)

Price: €4.41
Part No.: 5035.1003

Performance Line SG

Use for: Weld seam finishing, surface grinding

Professional tool of hardness grade N-INOX. PFERD product type characterized by exceptionally aggressive grinding performance and very long tool life. Provides outstanding shape stability in pipeline applications.

115mm x 7mm
(N SG INOX)

Price: €1.90
Part No.: 5032.1010

230mm x 7mm
(N SG INOX)

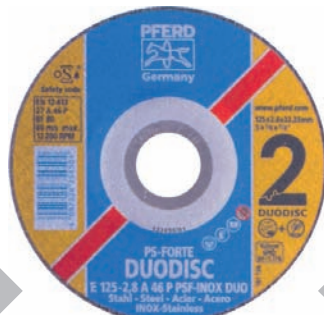

Price: €10.11
Part No.: 5035.1004

DUODISC: The New Combination Abrasive Wheel

Use for: Cut-off work, light deburring, light surface grinding

Combination abrasive wheel for cutting and light deburring work. General purpose tool, suitable for use on angle grinders of all output categories.

115mm x 2.8mm
(M PSF INOX)

Price: €1.60
Part No.: 5032.1014

Without Tool Change
