

Abrasive Spiral Bands

Particularly high stock removal and very aggressive abrasive action.

Use for: Weld dressing, coarse and fine grinding, refinement of edges and contours ect.

General Purpose

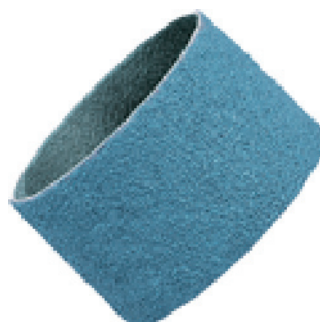

Aluminium Oxide (Brown)

Abrasive spiral bands with aluminium oxide grain are universally suitable for many materials.

Heavy Duty

Zirconia Alumina (Blue)

Abrasive spiral bands with zirconia alumina grain are designed for maximum stock removal.

Drum Holders

Drum holders are fully reusable.

Slots allow the drum to expand during grinding, thereby tensioning the abrasive sleeve.
